ASBESTOS BULK SAMPLE SUBMISSION FORM

(please refer to customer responsibilities on the reverse of this form before submitting samples)

Customer name / contact:		Site:	
Customer address:			
		Sample(s) taken by:	
Telephone number:		Email address:	
Mobile number:		Order number:	
Customer reference:	Material sampled:	Sample location:	Other information:
Customer signature:		Date:	
Contract reviewed / agreed by ERL:		Date:	

Samples will be analysed in accordance with in-house Test Method 1 based on *HSG 248 Asbestos: The Analysts' Guide*.
 Please read instructions on the reverse and adhere to the required sample size for water absorption test and soil analysis.

East Riding Laboratories ask their customers to:

- sample appropriately;
- double-bag each sample and seal securely;
- clearly label and identify each sample, ensuring that both inner and outer bags are labelled unless the inner details are clearly visible through the outer bag.
- complete a sample submission form with each sample or batch of samples;
- deliver to the laboratory in good time so that results can be made available when required;
- clearly indicate to whom the results should be addressed and sent;
- contact the laboratory in advance if large numbers of samples are to be submitted or a quick response is required;
- be responsible for the security of results on their premises;
- submit samples for water absorption (test not accredited) as a single piece measuring at least 5cm x 5cm and without coatings where possible;
- ensure soil samples to be searched for fragments of asbestos materials weigh no more than 100g per sample.
